

SAFETY POLICY

We are fully committed to provide safe working environment for our staff and workers. We are the professionals in engineering and are working towards making safety consciousness in general. As on today our safety norms are as under:

- SAFETY HELMETS : Use where work is going on at different levels
- SAFETY BELTS : Used for workmen working on heights
- HAND GLOVES : Used for gas welding, cutter for material handling
- SAFETY GOGGLES : Used for gas welding, grinding, pavement Breaking , hacking, etc.
- GUMBOOTS : Concreting works, asphaltting works, etc.
- FIRST AID KIT : At each site

In addition, an environment has been created that is conducive to exchange ideas and suggestions regarding safety related issues.

We aim to achieve nil accident rate on site.
